

#### During Call:

- Ananya: Finished with Review Page. Will help this week with any issues on the website
- Tyler: Worked on fixing database issues. Continuing work on the profile page. Navbar is complete but not the dropdown menu. Will start on project deliverables.
- Max: Finished on the login and register page last week. Working on getting the background and other style changes consistent throughout the website.
- Nguyen: Working on the stats page. Working on getting database functionality. Working on the index.js
- Winter: Finishing home page functionality. Finishing the last few APIs for the home page.
- Emerson: Finishing home page functionality. Finishing the last few APIs for the home page.

#### TA Comments:

- Create video for the demo in case there is a live failure. Make sure commits are there and project boards are up to date. Tickets will help justify grades. Have trello up to date as soon as possible.
